DETAILS

The SI3300 automates office mail and improves productivity and communications. Easily fold and insert invoices, checks, statements, order forms, price lists, newsletters, reply cards, return envelopes, and more! Even handles pre-folded and pre-stapled documents.

1. Envelope Feeder

Delivers outer envelope for inserted material. Holds up to 100 envelopes.

2. Sheet Feeders

Each sheet feeder delivers a single sheet into each mail piece. The pages are then gathered and folded. Each feeder holds up to 325 sheets. Also performs fold only applications.

3. Controls

Simple to use, anyone on your staff can use it. Program up to 20 preset jobs for routine applications. On screen instructions and icons guide job set-up for error free operation.

4. Insert Feeder

Accepts coupons, reply envelopes, or pre-folded flyers and nests them with the folded materials from the sheet feeder. Holds up to 100 inserts.

5. Standard Stacker or Optional Power Stacker

Once the completed piece is inserted into an envelope and the flap is sealed, it drops into the stacker. The optional vertical power stacker that loads on-the-fly, is available for greater capacity and productivity.
